36. APPENDIX A: DESIGN REGULATIONS MANUAL

- 36.1. This Design Regulations Manual is included in the constitution as a specific condition of the original approval of subdivision of Farm 1309 into the 87 privately owned erven, plus communal space (see Appendix B, Condition (a)(ii)).
- 36.2. The design criteria set out in this manual are in accordance with City of Cape Town (CoCT) Agriculture Zoning, that is, the zoning category within which the Estate falls. These criteria are additional to, and regarding aesthetic considerations, in some instances more stringent than, any Municipal (City of Cape Town Municipal Planning By-Law 2015, as amended) or National Building Regulations, and any design submitted will not be approved by the CoCT unless it has been approved by the HOA.
- 36.3. The HOA executive committee will treat all design submissions on merit, balancing the requirements of individual owners with the benefits to the Estate as a whole. But, in collaboration with the scrutiny architect, it has the power to veto any design judged not to be of Architectural merit or in keeping with the character of the Estate. Submissions must have a minimal impact on the natural beauty of the site. The impact, whether positive or negative, on the environment and investment value of the properties will be considered. It should be emphasised that owners should consult with the Scrutiny Architect at an early stage of the design of any new building to ensure that the final result is likely to be acceptable, before paying professional design fees.
- 36.4. The HOA reserves the right to alter or amend the Design Regulations Manual, if necessary, to maintain the visual integrity and character of the Estate, such alteration or amendment to be effected in terms of clause 29.
- 36.5. The HOA executive committee does not want to dictate the use of any particular style but rather to control the aesthetics and architectural quality of any design.
- 36.6. Further to Clause 18 of the Constitution, the GENERAL DESIGN CRITERIA detailed below are intended for the purpose of controlling the aesthetics of the development.
- 36.7.

36.8. APPROVAL OF BUILDING PLANS AND LANDSCAPE PROPOSALS

It should be noted that The City of Cape Town provides planners, developers, architects and building owners with a single helpful website where all application forms and relevant documents and systems are available online to the general public. Follow this link: <http://www.capetown.gov.za/en/Planningportal/Pages/default.aspx>.

Building plans and landscape proposals are to be dealt with as shown in the table below:

36.8.1. SUBMISSION TO THE HOA

- Prior to the submission of building plans to the Local Authority, plans must first be submitted to the HOA for approval.

High Riding Estate Home Owners' Association

P O Box 3069
Somerset West
7129

- Plans will not be accepted by the Local Authority for scrutiny unless they carry the approval stamp of the High Riding HOA.
- The HOA reserves the right to request any changes in design or site layout that are, in their opinion, required to preserve the aesthetic, architectural and environmental objectives of this Design Regulations Manual and the High Riding Estate.

36.8.2. SUBMISSION PROCEDURE

- Stage 1: **SKETCH PLAN APPROVAL** (After complying with 36.5. to avoid unnecessary costs and/or the need for resubmission.)

Requirements: Two paper copies to a suitable scale (1:100 or 1:50) indicating:

- SITE PLAN indicating existing site contours at 1m intervals, location of any natural features, rocks/boulders and any protected vegetation species. This drawing should also indicate the siting of the buildings, extent of boundary walls and paving, and siting of any outbuildings.
 - PLANS of all floors of the buildings, as well as all elevations and at least one section through the slope of the site, indicating the extent of sitework required.
 - The prescribed scrutiny fee, inclusive of VAT (adjusted annually) must accompany the plans upon the submission to the HOA. Further submissions will carry no additional cost. If, in the opinion of the HOA, the original application requires a total re-design, then the resubmission will be considered a new submission, with a new fee to be paid.
 - The applicant will receive notification and comment on the submitted design within 2 weeks of submission. The HOA will retain one copy of the plans for their records.
- Stage 2: **WORKING DRAWING APPROVAL**

Requirements: Two paper copies, coloured up to the requirements of the Local Authority. These drawings are to include fully dimensioned working plans, sections and elevations of all the proposed buildings and constructions on the site, as well as concise specifications (see item 36.6).

- Plans must be submitted to the HOA for their final approval.
- Once all amendments have been made, the plans will be stamped with the HIGH RIDING HOA stamp of approval.
- The applicant will receive notification and comment on the submitted working drawings within 2 weeks of submission.
- The HOA will retain one uncoloured copy of the plans for their records and the second copy is for the home owner's record.

High Riding Estate Home Owners' Association

**P O Box 3069
Somerset West
7129**

- **Stage 3: FINAL SUBMISSION to the LOCAL AUTHORITY**
 - The second HOA approved set of plans must be collected from the HRE Managing Agent and submitted to the CoCT, together with all other submission requirements in digital format, for its scrutiny and approval.
 - Plans will only be accepted for scrutiny by the Local Authority if they carry the stamp of the HIGH RIDING HOA, and any building plan scrutiny fee payable must be paid directly to the Local Authority.
 - The details of any technical alterations required by the CoCT must be submitted to the HOA for its records.
 - No other approval in terms of this Design Regulations Manual may be so construed as to exempt anyone from the obligation to submit their building plans to the Local Authority for approval.

36.8.3. BUILDING DEPOSIT

- Owners must submit the prescribed refundable deposit to the HOA upon approval of the building plans. The purpose of the deposit is to cover any possible damage to public areas during the construction process. This will be held in an interest bearing account, the interest accruing to the HOA.
- No approved plans will be released to the applicant until the abovementioned deposit has been lodged with the HOA.
- The deposit will be refundable upon completion of the building works, subject to inspection of the property by the HOA, and rectification of any damage by the owner. If the owner fails to rectify any damage, the deposit shall be used by the HOA for that purpose.

36.8.4. DEVIATION FROM APPROVED PLANS AND SCHEDULE OF FINISHES

- No deviation from the approved plans will be permitted.
- The HOA shall be entitled to enforce rectification of any such deviations from the approved building plans, where such deviations, in the opinion of the HOA and the Scrutiny Architect, detract from the intentions of this Design Regulations Manual.

36.9. Other Development Controls

36.9.1. BUILDING LINES

- The building lines are 7,5m on all internal subdivision boundaries and 10m on the boundary of the estate.

High Riding Estate Home Owners' Association

**P O Box 3069
Somerset West
7129**

- The following definitions (CoCT Municipal Planning By-Law, 2015) apply:
 - 'Building Line' means an imaginary line on a land unit, which defines a distance from a specified cadastral boundary, within which the erection of buildings or structures are completely or partially prohibited.
 - 'Structure', without in any way limiting its ordinary meaning, includes any building, shelter, wall, fence, pillar, tower, pergola, steps, landing, terrace, sign, ornamental architectural feature, swimming pool, fuel pump or underground tank, any building ancillary to service infrastructure provision, and any portion of a structure.
- On any given plot, no structures are permitted within the building line restrictions of the original conditions of subdivision as amended.
- Siting of buildings may not unreasonably affect the amenity of adjoining properties. Due consideration should be given to the location and elevation of structures, thus affording adjacent sites optimum outlook, views and privacy.
- Applications for departures from building line stipulations should be well motivated and will be assessed and supported or rejected on their merits. If supported, the applicant must then submit the application to the CoCT.
- By statute, only the CoCT can permit any deviation from building line stipulations. The HOA cannot do so.
- The onus is on owners to report any existing building line encroachments which exist on their properties in writing to the Executive Committee.
- Such encroachments are illegal and must either be removed, or condonation must be sought.
- If, having taken advice from the Scrutiny Architect, the Executive Committee is willing to support any particular encroachment, the owner must then submit an application for a relaxation of the building line restriction to the Municipality.
- If the Municipality refuses the application, the owner will be required to remove the structure, or part thereof, which contravenes the building line restriction.
- Likewise, if the Executive Committee does not support the encroachment, the owner will be required to remove the structure, or part thereof, which contravenes the building line restriction.

36.9.2. FLOOR AREA

- The total of all under-roof floor areas on a plot is restricted to a maximum of 1000sqm.
- The onus will be on owners to check their total floor space and ensure that they comply with this restriction.
- Defaulters will be required to make modifications so as to achieve the necessary

compliance.

36.9.3. OUTBUILDINGS and ADDITIONAL DWELLINGS

- Second dwellings and outbuildings are allowed, subject to normal Local Authority restriction, and may only be single storey and similar in style and finish to the main building.
- Historically, second dwellings were not allowed.
- Now second dwellings are allowed, provided they comply with all of the conditions listed in the City of Cape Town Municipal Planning By-Law, 2015, as amended from time to time.

36.9.4. SITE CLEARING

- Minimal 'cut' and 'fill' will be permitted according to the discretion of the HOA.
- Materials used for bank stabilisation must be of the approved type.

36.9.5. WASTE PIPES/DOWNPIPES

- All waste pipes, unless located within enclosed courtyards, shall be concealed.
- Gutters and downpipes should be unobtrusively located, and concealed as far as possible.

36.9.6. LIGHTING

- Exterior lighting of the site and buildings must be 'low key' and unobtrusive.

36.9.7. SIGNAGE

- No illuminated signage will be permitted.

36.9.8. LAUNDRY AND REFUSE

- Laundry and refuse areas must be screened within enclosed courtyards.

36.9.9. BURGLAR BARS AND ALARMS

- Burglar bars should be of simple rectangular forms and match, as far as possible, the design of the window or door mullions. They should preferably be placed internally.

36.9.10. SITES AND SERVICES

- Specific details of individual sites can be obtained from the consultant Land Surveyors: Ken Hodge Land Surveyors.
- All sites must be surveyed before any design work is undertaken.

High Riding Estate Home Owners' Association

P O Box 3069
Somerset West

36.9.11. BUILDING CONTROLS

- Building operations must comply with all municipal and national occupational safety and health legislation.
- Building operations shall not exceed 12 months in duration and no construction work shall be carried out after the times stipulated in the House Rules.
- All building work shall be executed in a workman-like manner and the site and surrounds thoroughly cleared of all builders' rubble and refuse upon completion.
- Strict control of all contractors and sub-contractors is the responsibility of the owner.
- Strict control of littering of the site must be ensured during the construction period.
- The building controls listed above are not really necessary as the Municipality issues its own documentation in this regard. So, if builders don't comply they should be reported to the CoCT. It is not the job of the Executive Committee, nor of the Scrutiny Architect, to try to force compliance. This is a matter which should be dealt with by the Municipality.

37. APPENDIX B: CONDITIONS OF APPROVAL

Notes

1. The zoning applicable to the High Riding Estate was amended by the City of Cape Town (CoCT) in 2015. As of 1 July 2015, Agricultural Zone I was replaced by Agricultural (AG) Zoning.
2. As of November 2019, the CoCT granted "approval to change the specified maximum coverage of 500sqm to a maximum floor area of 1000sqm." That amendment replaces (a)(xi) in the table above.
3. Also as of November 2019, the CoCT granted a relaxation of the building lines stated in (b) in the table above from 10m to 7,5m on all internal subdivision boundaries and 30m to 10m on the boundary of the estate.
